

# SD4 7mm SEMIDRY

"When you need the best of two worlds"

## A SemiDry 7mm in stylish blue Neoprene

Waterproof is proud to introduce the new SD4 SemiDry suit, the latest innovation in the long line of popular SemiDry suits produced by Waterproof. With new technology in its materials and featuring the very popular WPAD, Waterproof Personal Accessory Dock, the soft, artfully constructed docking station for removable, expandable pockets, lifts this popular suit category beyond expectations. Also new is the exceptional T-Zip dry zipper that adds extra softness and movability to an already well-tested and popular semidry suit model. Like all Waterproof suits, it features a unique anatomical design, super stretch neoprene seals on the neck and wrists, and the 3-dimensional hardcore rubber knee guards and reinforced shoulders and elbows. Additional features and smart product details can be found on this product sheet. Delivered with an H1 H.A.V.S hood.

The SD4 bridges the gap between a Drysuit and a Wetsuit. It is dry enough to keep the diver warm in colder water, yet maintains the snug fit of a high-end wetsuit. Perfect for long rebreather dives in warmer environments and minimal internal water flow, which extends the time before hypothermia becomes an issue.

Includes a H1 5/7mm H.A.V.S hood

### KEY FEATURES

- 3D Anatomical design
- WPAD
- Horizontal Back zipper
- TIZIP Master Seal dry zipper
- 3D moulded rubber kneepads
